

IN THE CLAIMS:

Cancel claims 6 and 8-10 before calculating the filing fee as shown in the following listing of claims, which replaces all prior versions and listings of claims.

1. (original) A liquid crystal display device, comprising:

a color filter substrate having a color filter formed thereon; and

a counter substrate opposed to the color filter substrate via a liquid crystal layer,

characterized in that a reflective film is formed between a colored layer serving as the color filter and the liquid crystal layer to have an area smaller than an area of the colored layer.

2. (original) A liquid crystal display device according to claim 1, characterized in that the reflective film is formed on the colored layer.

3. (original) A liquid crystal display device according to claim 2; characterized in that a transparent insulating film is formed between the colored layer and the reflective film.

4. (original) A liquid crystal display device according to claim 3; characterized in that the reflective film is a metal reflective film, and the transparent insulating film is a silicon oxide or a titanium oxide.

5. (original) A liquid crystal display device according to claim 4; characterized in that the metal reflective film comprises aluminum or silver.

6. (canceled).

7. (original) A liquid crystal display device according to claim 1; characterized in that a planarizing film is formed on the color filter, and the reflective film is formed on the planarizing film.

8. - 10. (canceled).
